Objective

A passionate and motivated individual seeking an opportunity to work in a dynamic environment where I can apply my technical skills and grow professionally and personally. Looking to contribute meaningfully to a company's success while gaining invaluable industry experience.

Work Experience

Company: Testrinx software Solutions Pvt. Ltd.

December 2022-Present

Project 2/Current Project: Pharmacy Website

Pharmacy is an ecommerce website providing medicines and other pharmacy products to customer's door.

This Project is based on PHP platform, where I have used Equivalence Class Partitioning technique to execute test cases.

Project 1: Inglewood Estate

Inglewood Estate is a leading wedding venue in Northern part of Victoria state in Australia; business includes providing services like Chapel, receptions and functions. The project is based on PHP platform where I worked as a manual tester using the boundary value analysis for positive and negative test scenarios.

Tools used: JIRA for bug reporting and tracking, MS Excel.

Company: AITouch LLP
